December 1, 2021

Dear NRA Certified Law Enforcement Firearm Instructor:

Due to the continuing restrictions in several areas, that prohibits law enforcement officers from obtaining the training needed for the renewal of their NRA Law Enforcement Firearm Certification, the NRA Law Enforcement Division is extending the waiving of the requirement for the 24 hours of Continuing Education Units (training) to renew until December 31th, 2022. We anticipate that this will be the last extension for the waiving of the Continuing Education Units.

You must still apply for instructor recertification, by downloading the Recertification Application here: https://le.nra.org/media/7746/recert-renewal_application.pdf completing and returning, with the renewal fee.

Additionally, the NRA Membership staff is internally limited so the processing of the required NRA Memberships, by paper form, is proceeding slowly. We urge all instructors renewing their certification(s), who also need to renew their NRA Membership, to do so online at <https://le.nra.org/> as the automated membership system will be faster.

Please remember if your membership lapses any time during your 3-year certification period, **you will be decertified**. NRA Membership is required to maintain your certification.

Stay safe, stay healthy and be careful!

Respectfully,

A handwritten signature in blue ink that reads "Glen Hoyer".

Glen Hoyer-Director
NRA- Law Enforcement Division
